BLUE LOTUS FARM—FEBRUARY CLUB OUTING

It was quite a day at the Blue Lotus Farm - everyone was totally blown away with the size of the place and also the size and number of the Lotus flowers and various other water plants and Lilies, it was quite spectacular.

Originally, we thought that the weather was not in our favour, as we had intermittent showers over the day, the first as we entered the gardens, but we were supplied with umbrellas at the door which allowed us to wander around in and out of hot houses, down walkways and across bridges to photograph the gardens as they sparkled in raindrops and sunshine and not get wet.

Interestingly, the Lotuses seemed to turn to face and follow the sun as they accepted the rain, sparkling beautifully, a photographer's dream really. The time went really quickly and I'm sure we will see lots of photographs from this outing over the coming year.
